

# Forms and Status of Library-IT Collaborations in Support of Faculty at Georgetown University

<u>If a faculty member wants to . . .</u>	<u>Then the collaboration needed is to . . .</u>	<u>Current Status at GU</u>	<u>Kind of collaboration</u>
<b>1. Learn how to use a resource</b>			
Get training	combine schedule & share facilities	Done: schedules are integrated Projected: teach in facilities of both	Integrate similar activities Integrate similar activities
Find documentation	co-develop guides to resources improve searchability of Web pages	Done: for students & faculty (print & web) Underway: user study and new tools	Integrate similar activities Coordinate complementary activity
Locate resources	integrate catalogues and directories	Projected: integrate language resources	Coordinate complementary activity
<b>2. Teach with technology</b>			
Obtain classroom support Use e-classroom Use delivered technology	coordinate support for electronic classroom synchronize laptop network settings for locations distribute class whiteboard files to student labs	Done, but improvement needed Done: DHCP and static IP addresses Underway: guidelines under development	Coordinate complementary activity Coordinate complementary activity Agree upon standards, procedures
Prepare course web site Add e-reserves Add discipline links Add image resources Experiment with video	add e-reserves to CourseInfo Enterprise library coordinate help from librarians & Faculty Support expand Angelica image database (Art, Classics) digitize, catalogue, and deliver resources	Underway: keep process, shift server Planned for Faculty Colloquium, CNDLS Projected: currently Art and Classics only Underway: experimental server in Library	Coordinate complementary activity Integrate similar activities in teams Agree upon standards, procedures Coordinate complementary activity
Learn pedagogy	share insights on teaching with technology	Underway: Summer Institute & CNDLS	Integrate similar activities in teams
Create a project Obtain funding Design project  Do development	collaborate on grant proposal from faculty form project team share insights on copyright share resources and expertise decide upon standards, procedures	Occasional: DLI-2 proposal Projected: Faculty Colloquium, CNDLS Underway for GU Web site, distance ed Projected: Faculty Colloquium, CNDLS Projected: encoding, metadata, preserving	Coordinate complementary activity Integrate similar activities in teams Integrate similar activities Integrate similar activities in teams Agree upon standards, procedures
<b>3. Research with electronic data and tools</b>			
Use library CDs and tools Access library Web subscriptions Obtain commercial resources	synchronize library host, network, workstations integrate proxy server into network development identify needs and order resources collaborate on teaching use of bundled tools	Underway: testing by Library and UIS Planned among network projects Underway: InteLex etexts in Philosophy Planned for Faculty Colloquium, CNDLS	Coordinate complementary activity Coordinate complementary activity Coordinate complementary activity Integrate similar activities in teams
Use data resources and tools	collaborate on archiving & access collaborate on researching resources	Underway: SAS manuals in Science library Underway: GIS user group of faculty	Coordinate complementary activity Coordinate complementary activity
