Subject: News from AUSJAL

Good morning!

I have just received notification that the AUSJAL Conference of Rectors (equivalent to our presidents) has formally accepted the proposal from our colleagues in information technology to become a formal conference within AUSJAL.

The rectors have received our colleagues with open arms and have given their blessing for the group to convene formally at Pernambuco in Recife, Brasil, on May 28th.

Finally, after two years . . .

Have a good day!

Jack
