

AJCU Greetings to AUJAL^S
Draft¹

To our brothers and sisters of AUSJAL. On behalf of the Association of Jesuit Colleges and Universities Conference on Information Technology I bring you greetings and affections. We congratulate you on the convening of your first meeting in Pernambuco, Brazil and wish success with the growth of your conference. We fondly remember our friendships of the past while looking forward to continuing deepening friendships and collaboration in the future. We ask you to join our efforts toward future collaboration by appointing several individuals from your conference to join us in conversations as soon as possible. It is our hope that these dialogues will result in a mutually beneficial partnership of our two conferences in the future.

This will be translated into Spanish & Portuguese, & given to Jack to take to the meeting in Pernambuco.
